TechniSat DiGYBOXX T4 CX

DTT receiver with CONAX conditional access system

TechniSat DiGYBOXX T4 CX is a DTT receiver for receiving SDTV and HDTV-programmes in highest digital quality (MPEG-4) via antenna. The receiver comes with a Smartcard-reader and an integrated CONAX decoding system. It is thus prepared for the best reception of Pay TV. DiGYBOXX T4 CX is also ideal for use on a camping site, as it can be run on a 12 volt battery.
