

TECHNISAT DIGITAL GMBH DATA PROTECTION DECLARATION

Protecting customer data and only using it as our customers expect us to is a top priority for us. Thus adherence to the legal data protection provisions is a given for us.

The TECHNISAT RVcontrol app (hereinafter referred to as “app”) is provided by TechniSat Digital GmbH, Julius-Saxler-Strasse 3, 54550 Daun, Germany (hereinafter referred to as “we”).

The information below advises you on what personal data are collected in connection with use of our app as well as what we will do with these data.

You can access this data protection declaration at any time in the app under the heading “Data Protection Declaration”.

1. Responsible body/contact

The responsible body in terms of data protection law is: TechniSat Digital GmbH, Julius-Saxler-Str. 3, 54550 Daun, Germany.

If you have any questions or suggestions concerning data protection, you are welcome to submit them via email to datenschutz@technisat.de.

2. Object of data protection

The object of the data protection is personal data. In accordance with Article 3 Para. 1 of the Federal Data Protection Act (BDSG), these are particulars concerning personal or factual relationships of a specified or specifiable natural person. This includes information such as your name, postal address, email address or telephone number, as well as usage data where applicable. Usage data are data needed to use the app. This includes, for example, your IP address and information concerning the single cable socket configuration you have chosen.

3. Type and scope of data collected

If you interact with the programming device for single cable sockets via our app, the following usage data will be automatically transmitted to the programming device for technical reasons.

- The local IP address of your mobile device
- Change in programming device settings (WLAN configuration, access data for a local WLAN if in client mode)
- Change in settings for the single cable socket connected to the programming device (enabled/disabled user bands or editing protection)
- Commands from the app to the programming device (e.g. resetting the jack to the factory settings).

The data do not enable any conclusions to be drawn as to your person and are exclusively transmitted within your local network. At no point are the data transmitted to our servers; furthermore, we have no access to data within your network. There is no expectation for you to disclose personal data to use the app, the programming device or single cable sockets, for example in the course of reporting or registering, so no further data are accumulated. No data that enable a conclusion to be drawn as

to the person of the user is exchanged between the app, the programming device and single cable sockets.

4. Purpose of data collection / Forwarding data

The above-mentioned data are only used to configure your programming device and the connected single cable socket and to ensure proper functioning of your TECHNISAT single cable solution. Your data will not be forwarded to third parties.

5. Information

You have the right to request information from us at any time concerning the data collected about you. Please send your request for information to:
